Q 1.	<p style="text-align: center;">SECTION A (READING)</p>	20
	<p>Reading the poem carefully and answer the questions that follow :</p> <p style="text-align: center;">Mending Wall</p> <p>Something there is that doesn't love a wall, That sends the frozen-ground-swell under it, And spills the upper boulders in the sun, And makes gaps even two can pass abreast. The work of hunters is another things: I have come after them and made repair Where they have left not one stone on a stone, But they would have the rabbit out of hiding, To please the yelping dogs. I let my neighbour know beyond the hill; And on a day we meet to walk the line And set the wall between us once again. 'Stay where you are until our backs are turned!' We wear our fingers rough with handling them. Oh, just another kind of out-door game, One on a side. It comes to little more: There where it is we do not need the wall: He is all pine and I am apple orchard. My apple trees will never get across And eat the cones under his pines, I tell him. He only says, '<i>Good fences make good neighbors</i>'. Before I built a wall I'd ask to know What I was walling in or walling out, And to whom I was like to give offence. I see him there, bringing a stone grasped firmly by the top</p>	8

Q. 2	<p>Read the passage carefully and answer the questions that follow :</p> <p style="text-align: center;">Mind Your Language</p> <p>1. CHANGE is often met with suspicion, and the rapidly raging SMS culture is no exception. As the world and its children went 'mobile', the cell phone's most-loved feature – Short Message Service (SMS) – became the handiest tool of communication.</p> <p>Beside convenient templates like 'I'll be late', 'I'm busy right now', and even 'I'm sorry' SMS is now used to convey all kinds of emotions, jokes, SOS alerts,</p>	(12)

	<p>news and entertainment information. The languages, which converted 'too' to '2', 'you are' to 'ur' and 'take care' to 'tc', among the million other sms' isms, may well have begun to save space and cost. However, the conundrum of figuring out newly coined short forms caught on with such fervour that despite the rapidly declining rates offered by phone companies, the trend continues.</p> <p>2. Students and young professionals often employ this 'half baked' language to almost all aspects of their lives. "Five out of 10 resumes I see are peppered with SMS languages", reveals an HR executive adding, "Beside coming across as highly unprofessional, these CVs are instantly rejected, even though the qualifications may be up to the mark."</p> <p>3. SMS lingo has also invaded the usually meticulous examination system, with students of all 250 classes almost subconsciously using short forms in their answer papers. "We have made it a policy to cut half a mark per short form in class and unit tests. Children have failed, but the trend continues," laments an English teacher at a suburban school.</p> <p>4. But are the youth in tune with these complaints? "I don't see any harm in using short forms, as long as the message is clear, and these days everyone does understand the commonly used SMS language," claims a 22 year-old young professional.</p> <p>5. Most English words are twice as long as they need to be, staggering under a weight of unvoiced vowels and surplus consonants. Surely pupils are saving paper and helping examiners with their brevity. All change must start somewhere and already a million fingers are tapping out a revolution."</p> <p>6. Sitting firmly on the other side of the fence, a journalist asserts, "That English is a funny language is the biggest cliché of all, but to lambast the rules of spelling in the manner that SMS does, is immature and despicable. We already have more forms of English than we can account for. Here we are trying to confer a common language on the globalising world in order to get all people to speak an understandable variety of the same basic language. And instead, we have to waste time and energy convincing people that further fragmentation of worlds, would be taking a long step back, and not forward."</p> <p style="text-align: right;"><i>(Education Times, 21 July, 2008)</i></p>
